

# **Bravida Norway awarded NOK 43 million contract for electrical, heating and plumbing installations at a new hotel**

**Bravida Norway has signed a contract with Backe Vestfold Telemark AS for the installation of electrical, heating and plumbing systems in a new hotel in the expanding Skien Brygge area in southern Norway.**

The new hotel will have around 142 rooms, and Bravida is responsible for the contractual work for electrical, heating and plumbing infrastructure. The electrical part of the project includes electrical installations and a control system developed especially for hotel rooms. The heating and plumbing part of the project covers the hotel, the basement car park and an energy hub that will supply power to the building itself and future construction phases.

“We will be using our proprietary hotel room control system for this project, which allows us to reduce the assembly time on site by utilising prefabricated solutions. We look forward to continuing our excellent cooperation with Backe Vestfold Telemark,” comments Geir Thorstensen, Branch Manager at Bravida Norway’s Electrical Branch in Sandefjord.

Are Holm Berg, Project Manager for Skien Brygge at Backe Vestfold Telemark AS, comments:

“The dialogue so far with Bravida has been very good, professional and clear, which we really appreciate.”

The project is scheduled for completion in 2027.
