

Bravida signs new framework agreement with Avinor at Bergen Airport Flesland worth approximately NOK 250 million

Bravida has been awarded a new electrical framework agreement with Avinor at Bergen Airport Flesland. The agreement has a term of four years, with the option to extend for an additional two plus two years.

The framework agreement covers the operation, maintenance and further development of the airport's electrical systems. Bravida already delivers ICT and heating and plumbing services, and the new framework agreement further strengthens the collaboration with Avinor.

“This agreement is important for our service business in Bergen, and we look forward to continuing our collaboration with Avinor. Together, we will contribute to maintaining and further developing one of the country's most important transport hubs. This agreement confirms the trust we have built through many years of collaboration with a long term and prioritised customer,” comments Gisle Kvamme, Regional Manager for Region Bergen, Bravida Norway.

Asle S. Gjerde, Head of Electrical at Bergen Airport Flesland, comments:

“Avinor Bergen Airport looks forward to continuing its collaboration with Bravida following a tender process involving several strong bidders. It is important for us to have framework agreements with partners that possess the required competence and capacity. Together, we will challenge each other to find good solutions that contribute to safe and reliable operations, while reducing life cycle costs and ensuring the sustainable development of our facilities over time.”

The agreement entered into force on 1 August 2026.
