

Bravida strengthens its electrical offering in Stockholm and Uppsala

Bravida has acquired Åslunds El, further strengthening its electrical services offering in Stockholm and Uppsala. The company generated revenue of approximately SEK 56 million in the previous financial year and has 29 employees.

Founded in 2013, Åslunds El specializes in electrical contracting, with a focus on residential and commercial properties. The company is headquartered in Knivsta and operates across the counties of Uppsala and Stockholm. Its customer base primarily consists of construction companies and property owners in the region.

"I am pleased to welcome Åslunds El and its employees to Bravida. It is a well managed company that complements our existing operations and strengthens our electrical offering in the region. The acquisition fits well with our strategy and further strengthens our position in the area," comments Peter Johansson, Regional Manager for Region Installation at Bravida Sweden.

Robert Åslund, CEO of Åslunds El, will continue to be part of the business. He comments:

"Becoming part of Bravida feels like a natural next step in our development and an opportunity to gain access to additional expertise that will help us broaden our offering. Bravida is a well established player in the market, and we share the same view on how to run and develop the business. As part of Bravida, we will have strong opportunities to continue growing and further improve our profitability."

Bravida will take over as the new owner on 1 September 2026.
