

Bravida signs a multi-year contract for technical Facility Management at 40 properties

Bravida signs a three-year contract with Trophi Fastighets AB. The contract includes full service provision and services relating to property management and the outdoor environment at 40 properties in Stockholm and the Mälardalen area.

Trophi Fastighets AB owns and manages properties primarily for retail locations in the grocery trade, such as supermarkets. Bravida technical Facility Management will provide technical facility management services, such as daily inspections and maintenance, as well as any fault rectification work that may be required.

“As one of Sweden's largest owners of retail properties, Trophi is looking forward to working with Bravida as its facility management supplier. We chose Bravida for one of our property portfolios because of its in-house technical competence and strong geographical presence in the areas where the properties are located. With this cooperation in place, Trophi will be able to provide fast and good service to our tenants in these places,” comments Jan Björk, CEO of Trophi Fastighets AB.

Pontus Monthan, Head of TFM Sweden at Bravida, comments:

“The contract with Trophi allows us to focus on our priority segments in technical Facility Management. We will deliver a one-stop-shop with our technical property management services. These services will help make the properties sustainable over time, as we provide energy-efficient solutions while creating long-term value in the properties. The contract also gives us the opportunity to work with Trophi’s tenants, which could lead to more areas of cooperation in the future.”

The contract runs from 1 April 2023 to 31 May 2026.
