

Bravida Denmark gets new framework contract for the Great Belt and Øresund links with a total order value up to around DKK 300 million

Bravida Denmark has signed a renewal of its framework contract with Sund & Bælt for the running and maintenance of critical technical systems at the Great Belt and Øresund land facilities for road and rail traffic. The contract is for four years and has an extension option.

The renewed contract for Denmark's largest bridge and tunnel links covers the operation and maintenance of the technical systems required to maintain safe and efficient traffic. Bravida will be responsible for functions such as control and monitoring systems, power supply, high voltage installations, lighting, ventilation systems and security solutions at the Great Belt and Øresund land facilities.

Ole Høgh, Regional Manager for Region Infrastructure at Bravida Denmark, comments:

“We are extremely proud to have been awarded this new contract, which is a powerful vote of confidence in and recognition of our previous work at the Great Belt and Øresund land facilities. It shows that we are a trusted partner and that our focus on delivering good service and quality is appreciated. We look forward continuing the excellent cooperation with Sund & Bælt.”

The new contract came into force on 1 December 2025 and has an estimated total value of DKK 300 million.
