

## **Bravida to secure Swedish Prison and Probation Service custody facilities in a deal worth approximately SEK 89 million**

**Bravida is to deliver a new overarching security system consisting of Integra and Artifex to the Swedish Prison and Probation Service custody facilities in Helsingborg, Gothenburg and Sollentuna. A total of 765 custody places will be assured through, for example, updating Integra hardware and implementing a new platform for the CCTV system.**

Bravida's contract comprises the installation of an overarching security system, updating hardware for alarm and access control systems and implementing a new platform for the CCTV system. Bravida will also be responsible for the integration of all underlying systems, equipment and functions to create a fully functional and operational facility.

Gottfrid Seidevall, CEO of Bravida Säkerhet AB, comments:

“It feels fantastic to have received this renewed vote of confidence from the Prison and Probation Service that called on us to deliver updated security technology for its custody facilities, which we have been working with for an extended period. We are confident in our expertise and our experience in delivering to complex projects of this kind.”
