## **Bravida is growing in Värmland, Sweden – acquires NPI Ventilation AB**

**Bravida Sverige AB acquires NPI Ventilation AB and strengthens the position within ventilation in Värmland, Sweden. The company has 16 employees and a turnover of approximately SEK 45 million in 2018.**

NPI Ventilation offers all types of installation and service in the field of ventilation and specializes in solutions for large logistic facilities. They have their establishment in Kristinehamn, but follow their clients on projects across the country. The customer base consists of both local and regional construction companies.

“This acquisition is a building block to further strengthen our offer within ventilation in Värmland. The fact that they have their own construction business is an important factor in our continued development”, says Stellan Lindqvist, regional manager Bravida, region Vänern.

NPI Ventilation was founded in 1987 by one of the current three owners, Anders Nordin. Anders is currently CEO of the company and will remain in the business as Branch Manager. He tells:

“We look forward with confidence to our continued journey through Värmland and Sweden together with Bravida. It feels good to be able to offer our employees the safety and the new opportunities that a larger company offers. We also see positive synergies in being able to work together with other technology areas within Bravida.”

Bravida will take over as owner on November 1, 2019.
